PRODUCT UPDATES

New Door Style

Greer

Price & Spec Book Page 13

This fashion forward raised panel complement to Gabi fortifies our library of trending Transitional and Modern Traditional door styles. Attractively priced and available in all stains and paints, Greer is sure to be a fan favorite!

- Transitional full overlay veneer raised panel
- Gabi door frame profile with veneer raised panel
- Available in Paint and Birch stain

- Slab drawer front standard
- 5-piece drawer front option
- Price Point F (Stain)
- Price Point H (Paint)

Gabbi Painted Icicle

New Finishes

Serenity in Color

Price & Spec Book Page 19

Customers are seeking calm, with earthy, muted whites and light-toned wood finishes. Two additions enhance our color palette, enabling designers to deliver that yearned-for sanctuary as the focal point of the home's interior.

KASHA

Natural, neutral brown stain

ICICLE

Cool, off-white color with gray undertones; available in Paint and Prefera

24" Base Wastebasket with Bottom Mount Guide

Price & Spec Book Page 112

- BWB24BMG
- Joins existing BWB15BMG, BWB18BMG, and BWB21BMG
- Bottom drawer features wood dovetailed drawer box with Smart Stop™ drawer guides on all construction platforms

Panel Expansion

Price & Spec Book Page 179

- PBEP2335, 3/4" x 23 3/4" x 35"
 - Edge banded front long edge
 - Matching laminate exterior and interior
- PEPR342, 3/8" x 23 3/4" x 42" with 3" applied stile
 - Matching laminate exterior; natural interior

Base Cabinet with Tray Divider Pull-Out

Price & Spec Book Pages 105

- BTDPP09, 9" wide
- Cabinet bottom will be APC for all construction platforms

Material Types

No two pieces of wood are exactly the same. Stains are likely to exaggerate the difference between open and closed grains and other markings in wood. Grain variation and color change should be expected. As hardwood ages, it will darken when exposed to different types of light. Color differences or changes in wood can also be caused by exposure to harsh chemicals, extreme heat, or other contributing external conditions. Additionally, wood species exhibit other defining characteristics, such as mineral deposits/streaks, knots, sap runs, pin holes, and wormholes. These markings make the wood unique and contribute to its enduring beauty.

In keeping with our practice of continuous product improvement and/or to maximize efficiencies, Nest may adjust specifications in design and materials as it deems necessary. Where differing materials are utilized, they will be of similar or better quality in keeping with Nest's commitment to quality.

Birch is a tight-grained hardwood with a smooth, even texture that may be characterized with a curled or wavy grain pattern. Its coloring ranges from very blonde to brown to red/brown.

Hardwood finishes combine hardwoods and engineered materials including solid-wood, engineered materials—such as medium density fiberboard (MDF) and high density fiberboard (HDF)—and similar composite materials providing a smoother surface for painting and superior stability, consistency, and durability.

Maple is a tight-grained, uniform hardwood that may include fine brown lines, wavy or curled markings, bird pecks and mineral streaks. It is predominately white to creamy-white in color with occasional reddish-brown tones.

Paint will develop hairline cracks in the finish, most notably around the joints. This is a result of natural expansion and contraction of the genuine hardwoods used in the manufacturing of this product. Hairline cracks are not considered a defect in the cabinetry or finish and will not be considered a reason for product replacement. Painted doors, drawer fronts and components may be constructed of hardwood and/or engineered materials for a smoother finish and better resistance to warping, expansion and contraction.

Prefera™ is innovative laminates that are applied to a wood or engineered wood substrate. Characteristics include crisp styling, consistent coloration, and abrasion-resistant durability.

Woodgrain Prefera™ features design leading, high definition wood grain laminates on doors, drawer fronts, overlay fillers, and select trim items. Grain characteristics will vary across laminated parts to mimic natural wood patterns.

Finish Descriptions

	FINISH NAME	DESCRIPTION
Stain	Cordovan	Medium, warm brown stain
	Curfew	Rich, deep brown stain
	Dockside	Medium brown stain with a touch of gray
	Downpour	Dark, gray stain with brown undertones
	Hazel	Neutral light brown stain
	Kasha <i>New</i>	Natural, neutral brown
	Kombucha	Medium to dark brown stain
	Natural	Clear coat which allows the pure beauty of natural wood grain to show
Paint*/Prefera™	Ardent	White, enhanced by the appearance of a medium gray glaze
	Icicle <i>New</i>	Cool, off-white color with gray undertones
	Kinetic	Off-white with an on-trend cool undertone, enhanced with a medium brown glaze
	Lotus	Creamy off-white
	Midnight	True navy blue
	Tempest	Cool, dark gray
	Thaw	Medium gray
	Ula	Warm, light gray color
	White	Pure white
	Woodgrain Curfew	Rich, deep brown laminate on a Curfew cabinet box

*On wood products, normal movement is typical due to change in climatic conditions. This will cause hairline cracks at stile, rail and panel joints. This hairline cracking is a normal characteristic of painted finishes and will not be considered a reason for product replacement.

Stained Wood Finishing Process

Stain application enhances the inherent differences in wood grain and characteristics. The stain naturally penetrates more or less in areas of open or closed wood grain. The combination of materials and processes were designed to produce these subtle differences to meet the overall market preference of a semi-transparent finish versus a painted stain appearance. Multiple process controls are implemented throughout the value stream to maintain overall consistency.

How to Use Door Style Numbers

Each door style described in this catalog is available in three construction methods - Standard, Select, and APC. Depending on what finish color is being specified, each one will have its own unique style number.

Examples:

- Lark White Standard = 5JW
- Lark White Standard 5-Piece = 5NR
- Lark White Select = 9JW
- Lark White Select 5-Piece = 9NR
- Lark White APC = 7JW
- Lark White APC 5-Piece = 7NR

Common Style Numbers for Finishes

In addition to the style numbers for door styles, there are several common items such as mouldings, panels, valances, fillers, organizers, wood hood units, open shelf units, and other parts that have been changed to a common style number based on finish. Look for the symbol (shown left) used throughout this book indicating Common Items. Please reference these common style numbers in the chart below.

Cordovan Stain	170
Curfew Stain	193
Dockside Stain	165
Downpour Stain	151
Hazel Stain	141
Kasha Stain New	136
Kombucha Stain	157
Natural Stain	182
Ardent*	143
Icicle New	138
Kinetic*	148
Lotus	147
Midnight	146
Tempest	139
Thaw	181
Ula	194
White	184
Woodgrain Curfew*	142

* When ordering Ardent or Kinetic common styles, only items featuring glaze will be orderable; all other items should be ordered in Lotus (#147) or White (#184). When ordering Woodgrain Curfew common style, only items featuring a woodgrain appearance will be orderable; all other items should be ordered in Curfew (#193).

Note:

-Painted and stained common style items will be wood or engineered wood.

-Common style items offered in Prefera™ are indicated by PS in the nomenclature (example PSMCROWN8).

	Miscellaneous Style	010	Miscellaneous items such as Sink Tilt-out Trays, and Cutlery Trays should use Common Style #010.

How to Order Upgrade Features

Each door style described in this catalog is available in three construction methods - Standard, Select, and APC. Depending on what finish color is being specified, each one will have its own unique style number.

- Examples:**
- | | |
|---------------------|--------|
| ► Lark White | is 5JW |
| ► Lark White Select | is 9JW |
| ► Lark White APC | is 7JW |

Select and APC Upgrades for Cabinets with Drawers

- Most cabinets **with drawers** can be upgraded to Select and All-plywood Construction.
- Cabinets upgraded to Select feature a standard Dovetail Drawer Box with Concealed Full Extension Smart Stop™ Drawer Guides.
- Cabinets upgraded to All-plywood Construction (APC) feature the Select Dovetail Drawer Box and Concealed Full Extension Smart Stop™ Drawer Guides along with APC Box Construction.

5-piece Drawer Front Upgrades for Cabinets with Drawers

- Can be applied to Standard, Select, and APC. (Select and APC will have additional upcharges)
- 5-Piece drawer front options are designated with a style name and a style number.
- 5-Piece drawer front pricing is an additional price added per drawer to the standard cabinet list price.

All-plywood Construction Upgrades (APC)

- Most walls, bases, tall, vanities, and universal cabinets can be upgraded to APC (All-plywood Construction).

Cabinet Front-Only (FO) Information and How to Order

- ▶ Cabinet front-onlys include the following parts (where applicable): frame, hinged door(s), drawer front(s), and non-matching toeboard.
- ▶ Parts not included: cabinets floor and cabinet accessories (door racks, wastebaskets, pull-outs, etc).
- ▶ Front-onlys are available in Standard door style numbers and are not trimmable.
- ▶ Front-only list price is 70% of the cabinet list price. Not available to order through 20/20, contact customer service to order.

Cabinet Frame Only (FM) Information

- ▶ Orderable on One touch.
- ▶ Ordered in common style codes.
- ▶ Not trimmable.
- ▶ Not available to ship FedEx.

FO and FM are not available on the following cabinet types (contact customer service for additional questions):

- ▶ Sink Base Cabinets or Sink Fronts
- ▶ Base-height Vanities that share a frame configuration with a standard Base Cabinet
- ▶ Base Roll Tray Cabinets 15"-24" wide or 39"-48" wide
- ▶ 12" deep Base Cabinets (Use SKU for 24" deep)
- ▶ 15" or 24" deep Wall Cabinets (Use SKU for 12" deep)
- ▶ 12" deep Utility Cabinets (Use SKU for 24" deep)
- ▶ Corner Cabinets with angled frames (SCER, BWRER, BLS, BECF)
- ▶ Only available in Standard construction, and will not be available with Smart Stop™ hinges.

Cabinet Specification Reference

- All Wall cabinets maybe flipped for a left or right hinge preference.
- Center shelf support clip included on Wall Double Door cabinets 27" wide and greater.
- Number above wall cabinet represents height of cabinet.
- 1½" Top and Bottom Rails on most cabinets.
- 1½" Vertical Stiles on most cabinets, except OCSD/OD/TMW Cabinets.
- Drawer box opening heights are 4½" for small and 9½", 9¾", or 10⅛" for large (deep) drawers.

- 7½" Overlay Door Styles:**
- 1½" Reveal around doors (1½" of Face Frame shows).
 - Door size for Single Door Cabinets: Frame opening + 7/8"
 - Door size for Butt Door Cabinets: (Frame opening + ¾")/2
 - 4½" High Drawer opening = 5⅛" Drawer Front.

- Full Overlay Door Styles:**
- ¼" Reveal around doors (¼" of Face Frame shows).
 - Door size for Single Door Cabinets: Frame opening + 2½"
 - Door size for Butt Door Cabinets: (Frame opening + 2¾")/2
 - 4½" High Drawer opening = 5¾" Drawer Front.

84" High Application

90" High Application

96" High Application

30" High Desk Cabinets

30" High Vanity Cabinets

32½" High Vanity Cabinets**35" High Vanity Cabinets****32½" High Base Cabinets (Universal Design Application)**

- 32½" High Cabinets are designed to comply with ADA (Americans with Disabilities Act) requirements of a 34" high overall counter height, including a 1½" counter top.
- Refer to ADA guidelines for more details on designing in small spaces where extra width for turning radius may be required.
- For Vanity Sink Base Cabinets, see page 148. For a Vanity Wall Sink Cabinet, see page 159.

Kitchen Planning Guidelines

Door/Entry

- Door opening should be at least 32" wide.

Door Interference

- Entry door should not interfere with safe appliance operation or appliance doors.

Distance Between Work Centers

- With three work centers, the total distance traveled should not be more than 26' with no single leg of the triangle less than 4' or more than 9'.
- With more than three work centers, each additional travel distance to another work center should be no less than 4' or more than 9'. Each leg is measured from the center-front of the appliance/sink. No work triangle leg should intersect an island/peninsula by more than 12".

Separating Work Centers

- A tall obstacle should not separate two primary work centers. A properly recessed tall corner unit is acceptable.

Work Triangle Traffic

- Major traffic patterns should not cross through the basic work triangle.

Work Aisle

- The work aisle should be at least 42" for one cook and at least 48" for multiple cooks.

Walkway

- The walkway width should be at least 36".

Traffic Clearance At Seating

- Allow 32" of clearance from the table to wall/obstacle if no traffic passes behind a seated diner. If traffic passes behind the diner, allow at least 36" to edge past or 44" to walk past.

Seating Clearance

- 30" high tables/counters should allow a 24" wide by 18" deep space for each seated diner.
- 36" high counters should allow a 24" wide by 15" deep space for each seated diner and at least 15" kneespace.
- 42" high counters should allow a 24" wide by 12" deep space for each seated diner and at least 12" kneespace.

Clean-Up/Prep Sink Placement

- With only one sink, locate it adjacent to or across from the cooking surface and refrigerator.

Clean-Up/Prep Sink Landing Area

- Include at least a 24" landing space on one side of the sink and 18" on the other.
- If all the countertop at the sink is not the same height, plan a 24" landing space on one side of the sink and 3" of countertop frontage on the other, both at the same height of the sink.

Preparation/Work Area

- Include a section of countertop at least 36" wide x 24" deep next to the sink for a work area.

Dishwasher Placement

- Nearest edge of dishwasher should be within 36" of nearest edge of sink. Provide at least 21" of standing space between the edge of the dishwasher and countertop frontage/appliances/cabinets which are placed at a right angle to the dishwasher.

Waste Receptacles

- Include at least 2 waste receptacles, one near the sink and the other nearby for recycling.

Auxiliary Sink

- Provide at least 3" of countertop frontage on one side of the auxiliary sink and 18" on the other side, both at the same height of the sink.

Refrigerator Landing Area

- Include at least 15" of landing area on the handle side of the refrigerator, 15" on either side of a side-by-side refrigerator, 15" of landing space which is no more than 48" across from the front of the refrigerator, and 15" above or adjacent to any under counter-style refrigerator.

Cooking Surface Landing Area

- Include a minimum of 12" of landing area on one side of the cooking surface and 15" on the other.
- If cooking surface is at a different countertop height than the rest of the kitchen, then the 12" and 15" landing areas must be the same height as the cooking surface.
- For safety reasons, in an island or peninsula situation, the countertop should extend a minimum of 9" behind the cooking surface if the counter height is the same height as the cooking surface.

Cooking Surface Clearance

- Allow 24" between the cooking surface and a protected noncombustible surface above it.
- At least 30" of clearance is required between the cooking surface and an unprotected/combustible surface above it.
- If a microwave hood is used, then the manufacturer's specifications should be followed.

Cooking Surface Ventilation

- A correctly sized, ducted ventilation system is recommended for all cooking surface appliances. The recommended minimum is 150 CFM.
- Code requires that the manufacturer's specifications be followed. Minimum exhaust rate for a ducted hood is 100 CFM and must be ducted to the outside.
- Make-up airway may need to be provided. Refer to local codes.

Cooking Surface Safety

- Do not locate cooking surface under an operable window.
- Window treatments above cooking surface should not use flammable materials.
- Place a fire extinguisher near the kitchen exit away from cooking equipment.

Microwave Oven Placement

- The ideal location for the bottom of the microwave is 3" below the principle user's shoulder, but no more than 54" above the floor.

Kitchen Planning Guidelines (continued)

Microwave Landing Area

- Provide at least 15" above, below, or adjacent to the handle side of a microwave oven.

Oven Landing Area

- Include at least 15" next to or above the oven.
- A 15" landing area that is not more than 48" away is also acceptable as long as the oven does not open into a walkway.

Combining Landing Areas

- If two landing areas are adjacent to one another, determine a new minimum for the two by taking the longer of the two and adding 12".

Countertop Space

- A total of 158" of countertop frontage, 24" deep, with at least 15" clearance above is needed to accommodate all landing, preparation, work, and storage areas.

Countertop Edges

- Clipped or round corners rather than sharp edges are recommended on all counters.

Storage

- The recommended total shelf/drawer frontage for a small kitchen (less than 150 square feet) is 1400", a medium kitchen (151 to 350 square feet) is 1700", and for a large kitchen (greater than 350 square feet) is 2000".

Sizes:	S	M	L
Wall	300"	360"	360"
Base	520"	615"	660"
Drawer	360"	400"	525"
Pantry	180"	230"	310"
Misc.	40"	95"	145"

- The totals for wall, base, drawer, and pantry shelf/drawer frontage can be adjusted upward or downward as long as the recommended total stays the same.

Storage At Clean-Up/Prep Sink

- The recommended total for a small kitchen is 400", a medium kitchen is 480", a large kitchen is 560", and should be located within 72" of the centerline of the main clean-up/prep sink.

Corner Cabinet Storage

- At least one corner cabinet should include a functional storage device.

Electrical Receptacles

- GFCI (Ground-Fault-Circuit-Interrupter) protection is required on all receptacles servicing countertop surfaces within the kitchen.

Lighting

- Every work surface should be well illuminated. At least one wall switch-controlled light must be placed at the entrance.
- Window/skylight area, equal to at least 8% of the total square footage of the kitchen, or a total living space which includes a kitchen, is required.

Bathroom Planning Guidelines

Door/Entry

- Doorway opening should be at least 32", requiring a minimum 2' 10" wide door.

Door Interference

- Entry or fixture doors should not interfere with each other and/or the safe use of fixtures/cabinets.

Ceiling Height

- Bathroom floor to ceiling minimum height is 80". A shower or tub with a shower head shall have a minimum floor to ceiling height of 80" above a minimum area 30" x 30" at the shower head.

Clear Space

- Plan a clear space of 30" from the front edge of all fixtures to any opposite bath fixture, wall, or obstacle.
- A minimum space of at least 21" is required in front of lavatory, toilet, bidet, and tub, with a 24" minimum space in front of a shower entry.

Single Lavatory Placement

- The distance from the centerline of the lavatory to the sidewall/tall obstacle should be at least 20".
- The minimum distance required is 15". The minimum distance required between a wall and the edge of a lavatory is 4".

Double Lavatory Placement

- The distance between the centerlines of two lavatories should be at least 36".
- The minimum distance required is 30".
- The minimum distance required between the edges of two lavatories is 4".

Lavatory/Vanity Height

- The height for a lavatory varies between 32" – 43" to fit the user.

Countertop Edges

- Clipped or round corners rather than sharp edges are recommended on all counters.

Shower Size

- The interior shower size should be at least 36" x 36". The minimum interior shower size required is 30" x 30".

Did you remember...

Styles and Pricing

- ▶ Select Door Style and Pricing Level from your 20/20 design program. (If copying and pasting from one order to another, remember to reset styles and pricing.)

End Finishing Options

Consider exposed end options:

- ▶ Apply an End Panel Skin to create a flush end on the side of a Wall cabinet if installed at the end of a run for ease of Moulding installation.
- ▶ Apply decorative door kit (DBEP, DWEP, DVEP). This kit includes $\frac{3}{16}$ " skin, decorative doors, and screws for field installation.
- ▶ Underside of Wall Cabinets are natural laminate, with a few exceptions such as WMD, WOL, WWG and WPG (exclusions to apply and noted throughout the book).

Wood and Finish Characteristics

Review specific details with the customer:

- ▶ Mineral Streaks, Birdseye Dots, Grain Variations.
- ▶ Color Variations/Darkening.

Clearances

- ▶ Add fillers between end cabinets and walls on full overlay door styles.
- ▶ Allow space between door/window trim and end cabinets for countertop and top moulding overhang.
- ▶ Include refrigerator door hinges in overall refrigerator height when placing cabinets above it.
- ▶ For minimum pull requirements on blind corner cabinets, see charts on pages [94](#), [120](#), and [157](#).
- ▶ Allow sufficient clearance (3") on each side of accessory cabinets (such as roll-out trays, swing-out units, etc).
- ▶ Doors on these cabinets must open fully for accessories to be functional.
- ▶ Ensure the height between the cooktop and range hood is 24" to meet NKBA guidelines.

Advise customer carefully on upper cabinet/microwave advantages/disadvantages as follows:

- ▶ Minimum of 18" from cooktop to upper cabinet/above the range microwave which allows for easy access to either, but less room over back burner.
- ▶ Minimum of 21" from cooktop to upper cabinet/microwave which allows for access to large pots on back burner of cooktop, but longer reach to microwave.

Fillers

- ▶ Place fillers toward end of run where least conspicuous if needed.
- ▶ Attach overlay fillers on top of base, wall, or tall fillers when using full overlay door styles to maintain a consistent reveal. Don't forget to include blind corner fillers.

Matching Interior Cabinets/Glass Options

- ▶ Use light rail and skin to hide color variation between bottom of WOL Cabinets next to any other cabinets.
- ▶ Verify mullion door grid matches customer expectations. (Advise customer of shaker grid pattern.)
- ▶ The use of glass for base cabinet applications or for placement near interior or exterior doors is not recommended.

Mouldings

- ▶ All toekicks must be skinned with TOEKICK8, TOEKICK8-4, or TOEKICKFIN8.
- ▶ Verify the correct amount of moulding has been ordered.
- ▶ Order toekick caps.
- ▶ Order extra scribe.

Islands and Peninsulas

- ▶ Consider standard height bars are 35" tall and require 19" knee space. Raised bars are 42" tall.
- ▶ Consider Base Peninsula Cabinets (PB) are 23 $\frac{3}{4}$ " deep and require 12" of knee space.
- ▶ Use outside corner moulding if a skin is exposed on the back of the island.

Appliances

- ▶ Do not place dishwashers next to diagonal front cabinet (interference) or next to a range (no countertop support).
- ▶ Verify refrigerator door has enough clearance to open beyond 90 degrees so refrigerator drawers can be utilized. Refer to appliance manufacturer's specifications.
- ▶ Heat Shield Kits are available for order and may be necessary in some applications.

Miscellaneous

- ▶ Order touch-up kit for future repairs.

Tips to the Installer

#10 x 2 $\frac{1}{2}$ " installation screws are available to order for attachment to wall. Proper wall stud or ceiling joist installation is essential for Wall and Peninsula Cabinets to support weight. Whenever possible, cabinets should be attached to each other for additional strength. Excessive weight should not be put on cabinets hung by themselves. Shimming may be required to ensure proper alignment. Wallboard alone is not strong enough to support the cabinets.

Nest's Warranty does not cover damage caused by improper installation. Please be sure to install cabinets properly and review all installation instructions. If you have questions, please contact your representative or customer service.

Wood Dust Warning

When cutting, sanding, sawing, or shaping cabinets or wood products, you are likely to generate wood dust. For your own safety, Nest recommends that you wear a protective mask to prevent breathing wood dust. We also recommend eye protection to avoid injury by flying wood chips or sawdust during cabinet installation.

Organization Solutions

Look for the symbol (shown left) used throughout this book indicating organization solutions.

Drawer Front sizes are representative of a VSB36 cabinet, smallest drawer front available.

Warped Door Policy

Nest cabinetry is constructed to strict specifications, including the moisture content present in wood. When the moisture content is maintained at a constant level, Nest is able to minimize the amount of expansion and contraction associated with natural wood. When a great amount of expansion and contraction occur, the result can be a warped door. By strictly controlling the amount of humidity present during manufacturing, Nest is helping to ensure you receive a quality product.

Because wood is a natural product, each piece of wood exhibits its own unique color and grain variations. These differences give wood its genuine beauty. The wood's natural properties also determine how each individual piece will react to changing weather conditions. Therefore, eliminating warped doors is virtually impossible.

If you feel that you have a warped door, Nest requires that you perform initial testing to determine the extent of the problem.

1. Remove the door from the cabinet and remove all decorative surface knobs or pulls and hinges.
2. Place the door on a completely flat surface, as determined by using a level, and alternately press on the opposite corners to observe if the door "rocks" or pulls away from the flat surface.
3. If you observe a gap between the door and flat surface, measure the distance to determine the amount of warpage.
 - A door must be warped at least $\frac{1}{4}$ " before it can be considered for replacement. When ordering a replacement by using Nest Part Replacement Order Form, be sure to fill in the reason for proper replacement code as "06".
 - If the door is warped less than $\frac{1}{4}$ ", we recommend you allow a complete heating and cooling cycle (summer to winter) to allow the door to reach moisture equilibrium. Adding magnetic catches or roller catches will often correct minor problems.
4. If the door does not pull away from the flat surface, it is not warped. Most likely, there is a problem with the cabinet installation. When cabinets are not properly installed in a level or plumb position, they will become racked and will cause the door to appear warped. To check for a racked cabinet, place a level on one end rail. The bubble in the level will appear centered if the cabinet was properly installed in a level position. Now, place the level on the other end rail. Again, if the bubble appears centered the cabinet is properly installed in a level position. Any variations in the location of the bubble will indicate the cabinet was not properly installed. (A plumb bob will reveal the same information.)

Another proper installation check is to place the level in the top, and then bottom of the installed cabinet's face frame. Identify the bubble's position in both, top and bottom, locations of the face frame. The bubble's position will indicate if the cabinet was not properly installed.

Certifications

ANSI A161.1

Our products meet or exceed the ANSI A161.1 performance and construction standards for kitchen and vanity cabinets as certified by ICC-ES (International Code Council Evaluation Service). Learn more at masterbrandcabinets.com/certifications.

TSCA Title VI

TSCA Title VI is a U.S. regulation that sets formaldehyde emissions standards for composite wood products, such as hardwood plywood, medium-density fiberboard, and particleboard, as well as products containing them, such as furniture. It requires composite wood products to be tested and certified by EPA-recognized third-party certifiers using specific methods. This federal regulation applies to all states and territories in the U.S. and is identical to the California Air Resources Board (CARB) rule. Learn more at masterbrandcabinets.com/certifications.

CARB Compliance - Formaldehyde Emissions

Nest is committed to offering solutions that meet or exceed air emissions rules and regulations. All composite wood products used in the construction of our cabinets, which includes end panels, bottoms, backs, shelves, toekicks and corner blocks, are compliant with emissions limits under EPA TSCA Title VI, CARB Phase 2 and HUD.

Discontinued Product Policy

- A minimum of 60 days notice will be given to customers announcing the discontinuation of a product.
- Product will no longer be available to order after the discontinuation date. Only warranty orders will be considered. With warranty orders, Nest will have the option to repair or replace a customer's defective product with the same discontinued product they originally purchased or with a current product that is similar in appearance.

Freight Policy

- If an entire order is no charge, Nest will pay for standard ground freight.
- If an order contains a chargeable item, the cost of freight will be charged to the customer's invoice.
- If a customer requests an upgrade to a parcel shipment method, the customer will be charged the entire freight charge.

Returned Goods Policy

- All cabinets are manufactured according to the individual order and cannot be changed, cancelled, or returned once order has been scheduled.

Transportation Claims

- Please inspect merchandise at time of signing freight bill, and have the transportation company note any damage incurred in transit.

Disclosure

- Prices and specifications are subject to change without notice.

Nest Warranty
